

Remarks/Arguments:

The above Amendments and these Remarks are in reply to the Final Office Action mailed April 30, 2008.

Claims 1, 3-9, 19 and 21-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Misra et al., (U.S. Patent 6,189,146) in view of Singh et al., (U.S. Patent 6,816,842) and in further view of Fenson et al. (U.S. Publication No.: 2002/0065681).

The independent claims have been amended to refer to group administrator created fields, rather than group administrator defined fields. For this reason, these claims are believed to be allowable.

In light of the above, it is respectfully submitted that all of the claims now pending in the subject patent application should be allowable, and a Notice of Allowance is requested. The Examiner is respectfully requested to telephone the undersigned if he can assist in any way in expediting issuance of a patent.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,

Date: May 30, 2008
